

Ask Us - Tell Us

Your Health and Care in Lockdown 2

Healthwatch in Sussex are supporting the NHS and Social Care to understand what is and isn't working well for people during Lockdown 2.

We are interested in your access to all services, for example:

Tell Us your experiences of health and care services

- How is your access to health or care services, easy or challenging?
- How are you feeling, are you more anxious or worried?
- How are you affected by changes to care or support services?

Ask Us so we can help you and others

- Should I contact my GP or 111 about my symptoms?
- Are hospital outpatients appointments still running?
- What if I have a dental problem?

I've got toothache but
can't see a dentist

Are pharmacies delivering
medication like last time?

My hospital referral was
sorted very quickly

I'm worried about my
eyesight - are the opticians
still open?

I can't get a GP
appointment

The District
nurse hasn't
answered
my calls

Can I take my relative
out of their care home?
